PROJEKT: Active EU Citizen: I love myself

REPORT: GROUP MOBILITY OF PUPILS ALCANTARILLA, SPAIN
SUNDAY 1ST FEBRUARY 2026
FILIP MARTINEK 7.A

My journey started at 1.40 am, very early in the morning, when we met at Brno Grand bus station. I said the last goodbye to my family and boarded the **bus from Brno to Vienna airport at 2 am**. I liked the journey to Vienna because I was playing mobile games with my friends and eating chips. Then I fell asleep.

My friends woke me up because we were finally at Vienna airport and it was 3.50. I was really stressed from the passage of the detectors. I didn't know why but I am always so scared. After all that checking we went in the gate where they check our passports and finally we went in the plane. We sat together in our group. **We got off at 5.50 for Alicante.**

The first 20 minutes were really scary because the plane **was shaking because of turbulence**. I was really scared. But after we flew above the clouds it was OK, so I went to sleep.

I woke up approximately 30 minutes before landing and the sky was clear. So, after all I really enjoyed the flight. **We landed at 8.45**. We waited after baggage reclaim for about 40 minutes for the **bus from Murcia airport to the Alcantarilla**. We got on it at 11.15 and **arrived in Murcia at 12.10** where my Spanish family and the other families were waiting for us.
