

SKUPINOVÁ MOBILITA: IES FRANCISCO SALZILLO Alcantarilla, Murcia, Španělsko
TERMÍN: 1. 2. 2026 – 8. 2. 2026
PROJEKT: Active EU Citizen: I love myself

REPORT: GROUP MOBILITY OF PUPILS ALCANTARILLA, SPAIN **FRIDAY 6TH FEBRUARY 2026 AFTERNOON** **Gabriela Plchová 9.B**

On Friday, 6th February, our last day of Erasmus in Murcia, Spain, we had a performance by Spanish students in a special room looking like a theatre, we were learning and singing songs together.

Later we had a **special farewell lunch at 3 p.m.** In Spain, people usually eat much later than in my country, so having lunch at 3:00 p.m. had become normal for us by the end of our stay.

For our final meal, we ate **paella**, one of the most traditional Spanish dishes. Paella is usually cooked in a big, wide pan and shared by several people called **paellera**. It is made with **rice and seafood like shrimp or mussels**, and it has a **yellow colour because of saffron**. It tastes very rich and flavourful.

The rice was soft and well-cooked, and the seafood was fresh. It was a perfect farewell meal. After lunch, we went to the city centre to spend our last afternoon together. We walked through the streets, talked, and enjoyed the warm weather one more time. Everything felt a little more emotional because we knew it was our final day. We took some photos to remember the moment and tried to enjoy every minute.

Later that day, while I was putting my clothes and souvenirs into my suitcase, I was thinking about all the experiences I had during Erasmus. I felt thankful for the new friendships, the memories, and the opportunity to discover a different culture. Packing made everything feel that I'm really going home.
