PROJEKT: **Our Planet, Our Responsibility: Learning from the Earth's Ecosystems for a Sustainable Future**

My host family in Palma de Mallorca

I was staying in family named where was a **mother-Mar**, a **father-Toni**, a **sister-Maria** and my **host and roommate-Aina**, oh and a **bird named Coco**

Aina's mother works in a bank and Aina's father repairs the windows. Maria is at university, she is studying biochemistry.

The whole week they took care of me and treated me very well. Aina's father doesn't speak English that much so we didn't talk too much, but we talked a lot with Aina's mother, Maria liked to talk with me and every day when we sat for a dinner, she was asking me about my day it was really sweet!

Every morning Aina's mother was waking us up, then she gave us breakfast with juice and after, when we were ready she took us to school. They were really sweet and I'm so happy I had them!

Every evening when we had dinner they gave me **some typical food of Spain like tortilla de patata** or something like that, it was yummy.

This is Aina my host and roommate

I'm so grateful for everything they did for me! (for example paying for my food when we were in the restaurant and making me all the food and for the bed). They are sooo sweet and I really enjoyed be with them.
