

# REPORT FROM 2<sup>nd</sup> PROJECT MEETING IN BOSA, SARDINIA, ITALY WEDNESDAY 23<sup>rd</sup> MARCH 2022

In the morning I got up at around 7 o'clock. I changed my clothes, brushed my teeth, took a shower and in the corridor I met my friend Filip, because we were staying with two brothers - twins. We

got pastries with Nutella and milk to drink for breakfast. After breakfast we went to school. We met the remaining friends and their hosts and continued our journey. At school immediately we went to a conference room as every day.

At 9.45 a.m. the **presentation on ecotourism began**. The presentation included various games. At the end we watched **Sardinian traditions and dances**. This was followed by a half hour "Coffee break". After this break **the Polish team gave us their presentation on hydroelectric power and renewable energy**. At the end of the presentation we played **Kahoot to test our new knowledge**. The Polish presentation was followed by a presentation from the Swedes. **The Swedish team also had a presentation on renewable energy, but on wind and solar energy**. At the end of the presentation we played **Kahoot again**. After these presentations we went home for lunch.

It was so hot outside that we fell asleep for a while when we got home. I was awakened by a call for lunch. **We had spaghetti carbonara for lunch**. After

eating, Filip and I met back in my room where we talked for a while about the day and relaxed. After less than half an hour we walked out towards the school where the bus was waiting for us.

**REPORT FROM 2<sup>nd</sup> PROJECT MEETING IN  
BOSA, SARDINIA, ITALY  
WEDNESDAY 23<sup>rd</sup> MARCH 2022**

**The bus took us towards the archaeological area and also to the town of Suni for a tour.**

First we stopped on the side of the road and went to see **a stone tower built by ancient people called Nuraghi**. We climbed the fences to see it and walk around.

At the second stop we walked **up a small hill with a beautiful view of the surrounding area. It was an area of ancient tombs.**

On the third stop, we got off at **Suni**. A 2 hour walk around the beautiful town followed. **Along the way we saw many beautifully decorated house facades.** On the way back, the bus left us **at the beach near Bosa**. We just stood for a

while, collecting shells and watching the sun gradually setting, some brave ones got into the water.

When the sun set completely, we parted, but all five of us went together. After about

half an hour we reached Klara's house, where we sat down in the downstairs common room. We all just talked for a while. After a while, the delivery service brought us food. Since there were no branches of well-known chains in the village, we got their traditional food. **It was a kind of hamburger, but it was bigger and contained a lot of pickles.** We talked and laughed again as we ate.

Soon, however, it was late in the evening and we had to leave. We went home together by car. At home I just took a shower, brushed my teeth and went to bed.

It was a really tiring day, but the many experiences were definitely worth it.
