

# REPORT FROM 3<sup>rd</sup> PROJECT MEETING IN BRNO, CZECH REPUBLIC

## WEDNESDAY 16<sup>th</sup> MARCH 2022

On Wednesday we continued to work on learning about **the work of a tour guide, but this time in the city centre of Brno.** In the morning we met at the school and took a tram together to the city centre where we the teachers were

waiting for us at the main square and we started **a game – a sort of a hunt in international teams to explore the sights of Brno.**

The game was prepared by Mr Zukal and Miss Vrabcová and the 8 B class, who were in pairs standing at different points around the city and helped direct the contestants. **Each team had a member from Spain, Poland, Czech Republic, Slovenia and France** and the teachers also had 2 teams to participate in the game.

The game lasted from 9 a.m. to 11.30 a.m. The teams were set a lot of tasks to complete and **they move from place to place where they had to take pictures, find something, draw something, etc.** so that they could get to know the sights of Brno. It was quite fun, even though it was quite cold, but we ran a lot, so we warmed up.

There were a lot of places to visit, even the Brno castle which was a bit far away, the cathedral, a lot of statues, old town hall, new town hall and many more interesting places. The best team who solved all the tasks and came first got some prizes typical for Brno.

At 11.30 a.m. **the foreign guests visited the Brno underground** under the green

market with a guide in English. First they watched a video in English about Brno and its history. **They walked under the Green Market, saw old cellars, an alchemist's workshop, wells, old lamps, torture instruments and an**

**underground pub.** Czech student meanwhile returned to school with one of the teachers.

The guests returned later to school and at 1.30 p.m. lunch was waiting for everyone at the school, another typical Czech meal.

At 2 p.m. after lunch the students divided into their international teams and started working on

creating a travel agency catalogue, which was to be their **final product from this meeting**. They could use computers, an interactive whiteboard and their notes from the previous days' project activities. Accompanying teachers helped and advised the students on how to proceed, while **the project coordinators had a meeting and prepared for the next project meetings**.

At 4 p.m. everyone went home to their host families and had a programme with their hosts. Some met in town centre or had other activities.

It was a busy day but most teams managed to do a lot of work which should be finished and presented on Friday.

In the evening at 7.00 p.m. the teachers went to see the musical Mamma Mía at

the Municipal Musical Theatre. Even though most of the actors sang in Czech, it was such familiar melodies by ABBA that everyone understood. At the end the actors were singing in English and most of the teachers sang along.
