TERMÍN: 21. 3. – 28. 3. 2026

PROJEKT: Active EU Citizen: Unidos en la diversidad / Jednotni v rozmanitosti

MY SPANISH HOST FAMILY

In the family which I stayed with in Spain was **Ogechi** (my host), her mother (Alicia), father (Ibe), two sisters Chioma (younger - one year) and Ines (older - thirteen years), two grandmas and grandpas and **two turtles and parrots**. Their house was about ten minutes (when you walk) away from school, so it's near.

I'll start the description of the family with the youngest one **Chioma which's one year old**. She has dark skin same as her dad and older sisters. She has naturally curly black hair, brown eyes and small body. She's so cute, even when she was sometimes loud. I didn't mind because she's just a baby, so it's normal for her.

Then there is **Ogechi**, who has the same hair and eye colour as her two sisters. **She's twelve years old, loves painting, skating and styling her hair**. She's very sympathetic to me. Then another kid is **Ines**. She's the same age as me, so she's thirteen years old. She has same hair and eyes as her two younger sisters. She plays football, loves painting and when I was in her and Ogechi's room I noticed she has a diploma on their bulletin board which was from Erasmus which was in the Czech Republic, too!! Then there are their parents, **mother Alicia** which has light skin, long brown hair, green eyes and she wears glasses, she's Spanish, and her **dad Ibe**, who has dark skin, brown eyes and black hair.

Their house has two floors, there is a small living room on the first floor, a small kitchen and a bathroom. Upstairs there is another bathroom and three bedrooms.

When you come in you can see a big table and a small TV and a door to a big balcony, on your right you'll see a small living room with a big TV, on the opposite site there is a smaller couch with one armchair and a circular table. Then you go straight on from the door and there are three small stairs down and on the left side there is a small room where's food and a small fridge. Next to this room there is a first bathroom and inside there is a washbasin on the chest of drawers and on the wall, there is a big mirror, so you can see yourself when you brush your teeth, there is also a toilet and a shower.

When you step out of the bathroom, you can see a small kitchen where there is a smaller circular table. On the table is a cage with first parrot. On your right, there is a door which leads you to a very big balcony. On the balcony **there are turtles and a parrot in the cage** (because it's too loud), a sort of small and big plants.

Stairs to the second floor are a few steps forward from the small living room. When you're upstairs you can see four big closets, on the left there are doors to bedroom where Ogechi's parents and Chioma sleep. On the right side there is a bedroom and another bedroom, where was Ogechi slept instead in her room, because I slept in hers and Ines's room. On the same side there's bathroom with toilet, a washbasin and a mirror. Next to the bedroom where Ogechi slept, there is her and Ines's room, it's a smaller room with two tables next to each other on the other side there is a bed and under it there is the second bed which you can slide out. Next to the bed there is a cupboard with drawers.

They were really kind and sweet to me. I'm glad I was stayed with this family!!
