Instituto IES Ramon LLull

This school is a **public school** located in Spain in the town of **Palma de Mallorca on the island of Mallorca**. It was founded in **1916** and it is in the centre of the town situated in a **historical building**.

It is called after the writer, philosopher, missionary, knight **Ramon LLull** (1232 – 1315) who lived in the 14th century in Palma de Mallorca.

The main languages of instruction are Catalan and Spanish the school also offers English language classes.

The school is for students from **13 to 18 years of age**. This means ESO 1-4 and Bachillerato, which is preparation for the Spanish school leaving exam.

Classes **start at eight** o'clock in the morning and each lesson lasts **55 minutes**. Between first, second and third lesson they **don't have a break** but after the third lesson, there is a **long break of half an hour**. Then they study **until two** o'clock and then go home for a meal because the **school doesn't have school canteen**.

The school is set up so that there is a **playground in the middle** where they have PE. They can play volleyball or football basketball or run around. There is also a very small gym where they can do sports, too.

The main building where they learn has no windows, there

are open arches. This is the reason why it is quite noisy. **All around are busy streets with a lot of traffic, so it is a big difference from our school.**

On the last third floor they have a natural history museum where they have stuffed animals and

various natural science things.

In general, I think they have many free hours and that they are very loud. There's about 20 of them in the class, and in some of them less.

When the school children go home at 2 p.m., there are cases for adults and vocational learning and various exams, so the school is open till evening with a lot of activities for general public.
