ŠPANĚLSKO

TERMÍN: 21. 3. – 28. 3. 2026

PROJEKT: Active EU Citizen: Unidos en la diversidad / Jednotni v rozmanitosti

REPORT: GROUP MOBILITY OF PUPILS ENGUERA, SPAIN **TUESDAY 24TH MARCH 2026 MORNING**

Barbora Káňová 7.B

On Tuesday we were all day at the partner school, where we had a full day programme. We were divided in international teams and **we practiced Maths with different Maths games**, some games were online while some were on paper.

Some games **similar to sudoku** where the other ones we had to guess a number based on a few clues, **we played a game of Kahoot** which had questions like „If Johny has 5 apples and you take away 2 how many apples does he have?“, it was very easy, even for me and I'm not very good at maths.

We played 2 Kahoots on math and then we played a Kahoot on food which had questions like “What do you not typically put in a salad?”. With the answers being either garlic, tomatoes, lettuce or dressing with only 1 of the answers being right (the right answer being garlic).

We were first in one of the math Kahoots and second in the other one, then we were also first in the food Kahoot. It was a very funny noon.

This school was one of the smaller ones, **what surprised me was that the school's playground was very large compared to the school itself**. There were also really pretty spots for relaxation. The classes were smaller but greatly equipped with stuff like laptops. The surrounding was cosy and fun. **I felt good there.**
