PROJEKT: Active EU Citizen: I love myself

REPORT: GROUP MOBILITY OF PUPILS ALCANTARILLA, SPAIN

WEDNESDAY 4TH FEBRUARY 2026 AFTERNOON

Jakub Čížmář 7.D

We started Wednesday afternoon by going to my Erasmus partner's house after the school finished, the journey was as usual except that today he showed me the bridge over the tracks because every other time we went straight over the tracks and it was a bit dangerous, on the way he introduced me to his friends with whom he sometimes walked the same way home.

At home **we had salmon for lunch** and then we had a rest for about half an hour. I rested. Right after that we went to the city by car. His dad drove us to the city with the intention of **meeting up with the other friends at the shopping centre and going to the jump park**, but we didn't know what else awaited us.

We waited for our other friends at the meeting point in the shopping centre for about 15 minutes and then we wanted to go to the jump park, but as soon as we got off, **we went to the jump park and found out that it was closed**. This surprised us because we thought the Spaniards had checked the opening hours, but apparently not.

So, we had to come up with a replacement idea because his dad was already gone and so were the other friends. In the end, we decided to go to another shopping centre and separate for about two hours there and then have dinner together in a restaurant.

So, we went to the tram stop towards the shopping centre and **there was an awkward situation because we each had to buy a ticket and there were about 25 of us there for one ticket machine**. The journey took about half an hour and then we parted ways in the shopping centre.

My friends and I went to the casino but luckily, I didn't fall for gambling and unlike the others I didn't waste a single cent there. We played various games with our friends there. I actually watched and they let me play some games with their credit. My friends and I even hit the jackpot there so we had a lot of tickets.

Then we went for dinner and since we didn't have time, we took our food with us and in the confusion **a Spanish girl spilled a Coke on me and that was my funny memory of the day**. After that we went home by car and I was laughing in the car all the way.
