SKUPINOVÁ MOBILITA: Escola Básica dos 2o e 3o Ciclos Dr. Horácio Bento de Gouveia, Funchal, Madeira, Portugal

TERMÍN: 15. 3. 2025 – 22. 3. 2025

PROJEKT: Our Planet, Our Responsibility: Learning from the Earth's Ecosystems for a Sustainable Future

REPORT: GROUP MOBILITY OF PUPILS FUNCHAL, MADEIRA, PORTUGAL, WEDNESDAY 19th MARCH 2025

Tomáš Krejčí 6.D

School on Wednesday started with **English class**. I had a **test on changing verbs into the past tense**, the teacher was really nice, I love how many of the teachers are so kind. Then we did some reading and listening exercises.

In **second lesson History**, the other students gave **presentations about the city's main sights**, like the giant platform at Cabo Girao and some other interesting places. Our original plans were cancelled because it was raining heavily, so we visited the "Future Room" instead, where we learned how 3D printers work and saw how they make objects layer by layer, we also tried printing some tags with our names on it, when it came out,

I was very surprised how small the final product was, and then we learnt that we need to adjust the size in the program before printing the object.

We had **lunch in the school canteen**. During our one-hour break, we tried to watch a movie, but it didn't work, so we went to the gaming room to play chess and some PC games. When we got home, we just chilled out for the rest of the day. Dinner was fried fish with rice and salad, and we had chocolate mousse for dessert. After a shower and brushing my teeth, I was ready for sleep and fell asleep quickly.
