My Spanish host family

The family is created by 4+1 members. Father, mother, sister and my friend **Ricardo**. The last member of the family is a **parrot**. When I came to their town they were very friendly to me. Once they greet me we went to the restaurant.

I really enjoyed the food it was a **really tasty pizza**. Then we went home. When we got to the front of the house, I knew he lived in a **flat**. But **I couldn't understand why they were wearing shoes in the apartment**. But they told me, no worries, that is normal in Spain. Then I went to bed, I was very tired from the flight.

In the evening, the whole family visited the **grandparents**. It was a great visit. His grandparents prepared a full table of food. I really enjoyed the stay with my family.

The only thing that makes me sad is that they didn't take me on a trip in their week of work.

Saturday 7th February with my host family family

I woke up at 7 am. **My friend's mother told me she would take us to the ocean**. I was really happy because I wanted to go somewhere the last day with them. So, we had breakfast with yoghurt and we went to the car and went to the beach. We drove an hour and then I saw my friend from Erasmus. I was really happy that I could speak my mother tongue.

We were talking with our friends and laughed. It was great then we even went to go up some **hill to see the beautiful look**. It was really great afternoon. Then we ate some **baguette for lunch** and then we went to my Spanish friend's football match. But I did not like it, because I do not like football. His team lost. Then we went home to buy some pizza I have really enjoyed to stay with them.
