

SKUPINOVÁ MOBILITA: IES FRANCISCO SALZILLO Alcantarilla, Murcia, Španělsko
TERMÍN: 1. 2. 2026 – 8. 2. 2026
PROJEKT: Active EU Citizen: I love myself

REPORT: GROUP MOBILITY OF PUPILS ALCANTARILLA, SPAIN **THURSDAY 5TH FEBRUARY 2026 MORNING** **Natálie Dvořáková 8.B**

On Thursday 5th February we supposed to learn about the culture in Murcia because the trip to this city was on the programme. So, in the morning at 8:30 we gathered in front of the school building where a small bus was waiting. We were sitting in groups of two people. The journey was long, so we had enough time to talk.

The dialogues were mostly about excitement about the trip ahead. We drove over fields with potatoes, orchards with lemon, orange and mandarin trees, near mountains and then cities. After one hour of driving we got there.

It was sunny but cold weather. We had to walk a bit. We stopped on a big square in front of a **beautiful cathedral** with tower behind it. On that square we stayed for a bit because our Spanish mates prepared a small talk about the cathedral history for us. It took only few minutes for each one of them to have their turn.

When we stepped into the cathedral we had to be quiet. It was gorgeous. After it we went with a guide into the tower. Inside were **no stairs, only ramps up**. We stepped into a few rooms that

were there. One of them was special, because it was able to carry a sound from one corner to another.

Then we stepped on the highest balcony on that tower, where we **waited for bells to start to ring**. We also could see the whole Murcia from up there. We learned that this tower was owned by Muslims, but then Christians took it back and was built in many different architectural styles.

After it we sat in a park in front of the tower where we had a 30 minutes break to eat out snacks. We also wanted to visit **Veronica's market** but we didn't have a time.

After a break, we continued to a city hall square, and visited Royal Casino.

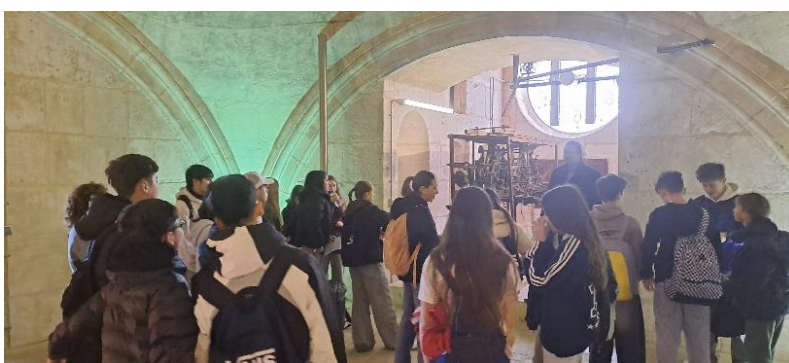

A guide talking to us in front of the cathedral tower.

Model of the cathedral.

The whispering room and the clock mechanism.

Cathedral from the top of the tower.

Tower bells.

View of the city from the tower
